

Service Level Agreement (SLA)

DRAFT template - finalize commercial terms with counsel. Targets below are proposed and must be confirmed against operational capacity.

This SLA supplements the Terms of Service between **VERTOFI PRIVATE LIMITED** (CIN U62099TS2026PTC211039) and the Customer.

1. Availability target

Vertofi targets **[99.9%]** monthly availability for the core platform, calculated excluding scheduled maintenance and Excluded Events (below).

The platform is engineered toward higher availability (multi-AZ, autoscaling, graceful degradation). Commit only to a target your operations can sustain.

2. Definitions

- **Downtime:** the core service is unavailable for all of the Customer's users due to a fault within Vertofi's control.
- **Scheduled maintenance:** notified in advance ([24-72] hours) where feasible.
- **Excluded Events:** factors outside Vertofi's reasonable control, including third-party provider outages (banking/GST/payment/AI/cloud), force majeure, Customer-caused issues, and misuse.

3. Support

Plan	Channel	Target first response
Starter	Email / help centre	[1 business day]
Growth	Priority email / WhatsApp	[4 business hours]
Pro	Dedicated account manager, 24x7	[1 hour for critical]

Severity definitions (Critical / High / Medium / Low) and corresponding targets are set out in [Schedule A].

4. Business Lifeguard (24x7)

Emergency support for GST/IT/TDS notices, fraud and disputes is available per the applicable plan.

5. Service credits

For confirmed failure to meet the availability target, the Customer may request service credits per the table in [Schedule B] (e.g., a percentage of the monthly fee), as the sole and exclusive remedy.

6. Backups & recovery

Vertofi maintains backups with point-in-time recovery and documented RTO/RPO targets; recovery procedures are tested periodically.

7. Maintenance

Routine maintenance is performed in low-traffic windows with prior notice where practicable; emergency maintenance may occur without notice to protect security or stability.

8. Reporting & claims

Service-credit claims must be submitted within [30] days of the incident with reasonable supporting detail.

This is a template; figures in brackets are placeholders to be confirmed.
